BROOKLANA ANGUS
ANNUAL SALE

WE COMMITTED

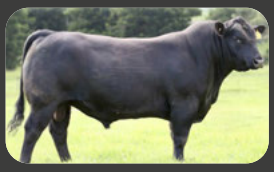
Millah Murrah Prue M4

Purchased outright in 2017 for an Australasian record

Millah Murrah Rocket Man R38

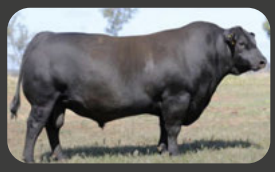
Purchased outright in 2021 for an Australasian record

WE CHOSE

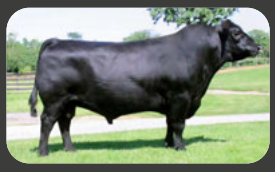


Brooklana Chisum Q24

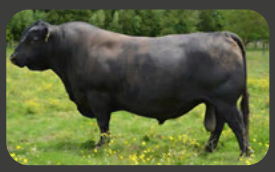
Brooklana Emperor L29



Brooklana Emperor Q23



BT Right Time 24J



Matauri Reality 839

Millah Murrah Kruse Time K400

Spickler Chisum S255

Millah Murrah Paratrooper P15

Te Mania Emperor E343

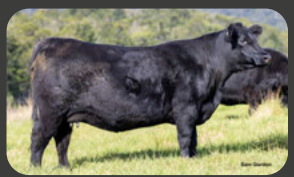
WE CREATED

Brooklana Prue S5

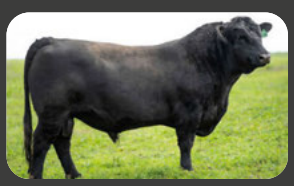
Brooklana Prue X50

Brooklana Prue S8

Brooklana Vanquish V6 & Brooklana Prue V7



Brooklana Prue V7



Brooklana Revolution R33

NOW IT'S YOUR CHOICE

AuctionsPlus

How to register as an AuctionsPlus user/buyer

1. To sign up to AuctionsPlus, fill in your details and create a security PIN.
2. Verify your email and phone number.
3. Follow the steps to verify your ID.
4. Enter your PIC number, ABN and business details if relevant.
5. Carefully read and accept our user rules and responsibilities.
6. Complete the user quiz.
7. Submit your request to our team.

Representing the pinnacle of the Angus Australasia World being out of the current record priced Angus female, Millah Murrah Prue M4, by the current record priced sire, for an outright sale, Millah Murrah Rocket Man R38. Prue V7 is offered to the market as the first animal ever, representing not only this genetic pairing, but the first female ever to be presented to the market of the Prue M4 breeding line. Prue 7 embodies all that breeders could aim for, including a calf at foot by the record setting Millah Murrah Trigger T308.

Flush brother to lot 1, Vanquish comes with proven genetics and proven reproductive capacity, having recently spent 10 months at the Ced Wise Export A.I. Centre. Vanquish purchase comes with 1,000 straws of licensed semen, being equally export and domestic straws. Even from a calf, Vanquish commanded attention, representing the male version of his outstanding parentage. Purchasers have the option of acquiring a half share in Vanquish or purchase outright. Contact agents prior to sale.

Another sire with Prue M4 on both sides of the pedigree, by Revolution R33, out of a Q17 daughter. V39 exemplifies our breeding philosophy over the past few years. Buying Prue M4 to breed with Emperor L29, then introducing Paratrooper into the mix. Combined progeny of L29 sire Emperor and R33 sire Paratrooper, exceeds 16,000 Proven most popular. Great to offer R33 progeny, when they have had an opportunity to be presented in their best light. Herd builder.

A young sire that commands attention. His sire being the grand sire of Millah Murrah Trigger, his dam being the daughter of Paratrooper, granddaughter of Prue M4. This mating has really worked, IMF of 3.6, fats way above average. Has been used lightly, semen collected and retained, suited for heifers. A prominent stud sire probability.

Another Chisum S19 son, bringing with him Flower N30 + Chisum genetics, we're really impressed with the structure S19 gives to his progeny, not surprising when you look at how he has been bred. V47 backs that up with a Mytty in Focus daughter and you get the picture.

For the purists, sired by S Chisum 255 himself, out of an amazing 14 yr. Dream/Emperor/24J cow, Brooklana Dream H28. I was praying for a heifer; you can be the winner here. What an opportunity, I recall a few years ago, the purchaser of an H28 son, topping the Dorrigo weaner sales with an outstanding run of steers. Good cows breed great steers, as well as heifers. Get a great cow herd. Start here with V1.

An APR who has made it through a number of successive cuts, interesting double up of Prue M4 on both sides of the pedigree, by narrowing down of the gene pool, we aim to produce a more true to type of the resultant progeny. Provided the inbreeding coefficient is below around 15%, we will consider doubling up individuals to both sides, the inbreeding coefficient with this animal is 7%. An interesting opportunity here

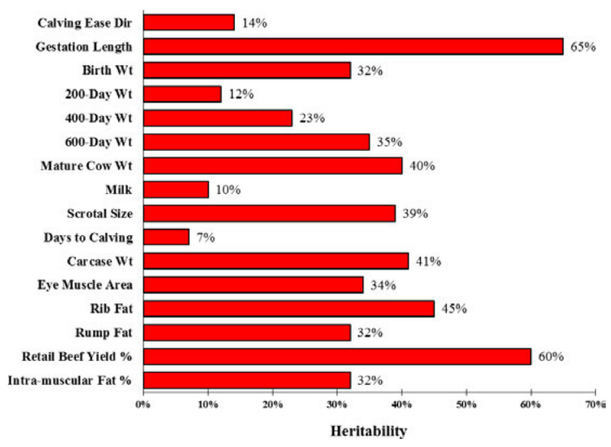
Heritabilities of Traits in Angus Group TACE (TransTasman Angus Cattle Evaluation)



Only part of the variation that we observe among animals is due to genetic differences. The majority of the variation is generally due to non-genetic factors such as differences in environment and nutrition.

The degree to which genetic differences influence performance varies from trait to trait. This is explained by differences in the “heritability” of the traits.

Growth and carcase traits tend to have moderate to high heritabilities (i.e. 20 to 60%), whilst maternal traits have low heritabilities (10% or lower).

Angus TACE takes into account the different degrees of heritability of various traits, and the known genetic relationships between the traits.

BROOKLANA ANGUS

Brooklana Angus Bull Stud Guarantee

Any Brooklana Angus bull that proves to be structurally unsound, infertile or incapable of service is guaranteed for up to 2 years from the date of sale. Under these circumstances Brooklana Angus Stud will: REPLACE THE BULL WITH A SATISFACTORY SUBSTITUTE IF AVAILABLE, OR ISSUE A REFUND EQUAL TO THE VALUE REMAINING *see below, less the salvage value.

The guarantee covers the purchase value of the bull, without interest, cost and damages. The guarantee shall apply providing the bull’s incapacity is not caused by injury or disease contracted since leaving Brooklana Stud, the value remaining is calculated on the basis that the guarantee is reduced by one half of the purchaser price for each year of service from the sale date. The purchaser on request must supply a Veterinary certificate. Any dispute that may arise shall be settled by a mutually agreed arbitrator and must be lodged within 12 calendar months from the date of sale.

DISCLAIMER: All possible care has been taken by the vendor to ensure that all information provided relative to this sale is correct at the date that the information was provided. Purchasers are encouraged to seek independant verification of the publication of any marketing material associated with this sale. The vendors and their agents do not accept any responsibility for any representation made or contained within marketing material applicable to this sale.

AGENTS REBATE OF 2% APPLIES TO OUTSIDE AGENTS INTRODUCING PURCHASERS IN WRITING, PRIOR TO THE SALE.

TRANSPORTATION

Travel free subsidy 500kms from Brooklana Angus. Interstate purchased lots will be freight free to Wagga Wagga and Toowoomba.

Angus Australia
Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

- **PV**: both parents have been verified by DNA.
- **SV**: the sire has been verified by DNA.
- **DV**: the dam has been verified by DNA.
- **#**: DNA verification has not been conducted.
- **E**: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

from member _____ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: _____ Signature: _____

Date: _____

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350

Welcome to the home of Brooklana Angus

A special welcome to our valued existing owners and the new intending owners of our special, four-legged family members.

Following the sale, we invite you to stay and enjoy our hospitality as we celebrate what we consider to be the release of a new era for Brooklana Angus.

Rodger Pryce and the Brooklana Angus Team

Brooklana Xcel X54

Rodger Pryce - Brooklana Prue V7 Lot 1

Welcome, to our 2026 Annual sale, this year being the first year that we have offered at our sale any females and the first time for a Prue M4 daughter to be made available and what an outstanding animal she is.

The reality is that in our opinion, Millah Murrah Prue M4, has proven to be a very special cow and we are delighted to present an opportunity for others to benefit from what she not only offers, but to enjoy what it is she represents. The progeny that she has produced through successive generations, have been outstanding, across a multitude of sire combinations. To present this opportunity having our Millah Murrah Rocket Man as the sire of the heifer being offered, could not be more appropriate, especially as he is creating outstanding progeny wherever he has been used.

Our 2026 Annual Sale is the launch of a new era for Brooklana Angus, with many exciting genetic combinations, blending the old with the new.

Research reveals that the same few sires, who are the major contributors to outstanding animals, are continually found in the pedigrees of the latest high achievers. Blending these outstanding sires into genetic outcomes, with the female contemporaries of the breed, has been our ultimate objective from the outset.

We trust that you find opportunities, within our 2026 offering, which will enable you to continue your journey along the path of genetic excellence.
